Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 13th March 1954

CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 6th March 1954, under the heading "Cessation of Patents"—

for No. "48592" read No. "38592".

Applications for Patents

The dates shown in crescent brackets are dates claimed under Section 78-A of the Act.

25th February 1954

- 51351. J. Wolfinger. Remote control system.
- 51352. M. J. Gujarathi. "Napo" centrifugal self locker for hydro extractor as per requirements of international labour organisation for stopping accidents from hydro extractor.
- 51353. V. R. Barve. A cheque-writer and/or addressograph.
- 51354. Estirajes Balmes, S.A. Improvements in the drawing mechanisms of spinning and preparing machines.
- 51355. United States Steel Corporation. Method and apparatus for continuously centering a moving strip.
- 51356. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of joining heavy work pieces.
- 51357. N. V. Philips' Gloeilampenfabrieken. Improved method of producing a substance having a fungicide effect.
- 51358. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to electric apparatus.
- 51359. Ciba Limited. Manufacture of steroid compounds.
- 51360. Prof. Dr. T. Reichstein. Process for the synthesis of steroids.

26th February 1954

- 51361. K. P. Bhawe. Folding attachment for bicycle pedals.
- 51362. Rheinpreussen Aktiengesellschaft für Bergbau und Chemie. A process for the production of hydrocarbons and oxygen-containing organic compounds. (21st July 1952). [Addition to No. 43043.] [Divisional date, October 27, 1952.]
- 51363. Rheinpreussen Aktiengesellschaft für Bergbau und Chemie. A process for the production of hydrocarbons and oxygen-containing organic compounds. (21st July 1952). [Addition to No. 43043.] [Divisional date, October 27, 1952.]
- 51364. D. Napier & Son Limited. Transmission gearing including means for measuring torque. (27th February 1953).
- 51365. Austin Crompton Prakinson Electric Vehicles Limited. Improvements relating to weighing mechanism. (27th April 1953).
- 51366. Alweg-Forschung-Gesellschaft mit beschränkter Haftung. Improvements in or relating to means of transportation. (3rd September 1953).

- 51367. The Chloride Electrical Storage Company Limited. Improvements in lead acid electric accumulators. (17th March 1953).
- 51368. The Chloride Electrical Storage Company Limited. Improvements in terminal arrangements for electric accumulators. (17th March 1953).
- 51369. The Chloride Electrical Storage Company Limited. Improvements in accumulator grid alloys. (23rd December 1953).
- 51370. Monsanto Chemicals Limited. Improvements relating to the production of polymeric materials. (13th May 1953).
- 51371. E. C. E. Hemsted. Improvements in and relating to tampons, pads, filtering materials and the like. (27th February 1953).
- 51372. G. Heussner. Improvements in and relating to half-tone printing blocks. (27th February 1953).
- 51373. G. Marconi. A process for excavating wells and trenches by the circulation of mud sucked through an excavating bell.

27th February 1954

- 51374. L. Leslie-Smith. Improvements in or relating to vacuum flasks and the like.
- 51375. John F. Russell, Jr. Liquid dispensing machine. (28th February 1953).
- 51376. PERFOGIT Societa per Azioni. Thread storing thread advancing device comprising an idle advancing roller.
- 51377. Stamicarbon N. V. Method of separating a mixture of solid particles into fractions by means of a hydrocyclone.

1st March 1954

- 51378. Dr. H. Morr. Highly porous electrodes for galvanic elements.
- 51379. B. R. Balakrishnan. Reform fountain-pen and pen-holder.
- 51380. Narayan Das. An improved card rack.
- 51381. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to the production of phenthiazines. (8th April 1953).
- 51382. Societe Des Usines Chimiques Rhone-Poulenc. Process for the production of N-substituted phenthiazines. (8th April 1953). [Addition to No. 51381.]
- 51383. Edwin Danks and Company (Oldbury) Limited. Improvements in apparatus for controlling the operation of mechanical stockers. (5th March 1953).
- 51384. Imperial Chemical Industries Limited. New thio-barbituric acid derivatives. (20th March 1953).
- 51385. Ercole Marelli & C. Societa per Azioni. Improvements in electric fans for ceilings with particular reference to the motor construction system.
- 51386. Pilkington Brothers Limited. Improvements in or relating to the manufacture of electrical resistances for domestic heating. (2nd March 1953).
- 51387. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of derivatives of meta hydroxy aniline.

51388. The Dansmidth Corporation. Conveying apparatus.
51389. Ciba Limited. Process for the preparation of yohimbine derivatives.
51390. W. Lindsay. Improvements in or relating to tea rolling machines.
51391. W. Lindsay. Improvements in or relating to tea rolling machines.
51392. S. M. Smith. Improvements in franking machines.
51393. F. Ljungstrom. Arrangement in heat exchangers.
2nd March 1954
51394. P. S. Nanoty. Bituminous concrete mixing apparatus.
51395. The General Electric Company Limited. Improvements in or relating to electric signalling systems of the kind using pulse code modulation. (5th March 1953).
51396. The General Electric Company Limited. Improvements in or relating to apparatus for comparing the instantaneous values of two voltages. (5th March 1953).
51397. The General Electric Company Limited. Improvements in or relating to apparatus responsive to the frequency of alternating currents or speed. (16th March 1953). [Addition to No. 47151].
51398. The General Electric Company Limited. Improvements in or relating to crystal triode circuits. (17th March 1953).
51399. The British Iron & Steel Research Association. Electrodeposition of iron-zinc alloy.
51400. S. I. S. Societe D'Investissements Collectifs Lausanne. Juice extracting and pulp making process.
51401. Ashley Accessories Limited. Improvements in or relating to ceiling roses. (10th April 1953).
51402. Frawley Manufacturing Corporation. Cam type retractable mechanism.
51403. O. Kendall. Improvements in or relating to sound recording and reproduction.
51404. Standard Telephones and Cables Limited. Radio frequency filter. [Addition to No. 47486].
51405. B. B. S. Jensen. Method for producing adrenal cortical hormones. (3rd March 1953).
3rd March 1954
51406. Simon-Carves Limited. Improvements relating to sink-and-float coal or ore washing plants.
51407. The National Smelting Company Limited. Improvements in or relating to zinc smelting. (30th December 1953). [Addition to No. 43310].
51408. Societe Des Acieries De Pompey. Process of manufacturing low alloy steel and steel articles made from said steel, in particular oil wells tubing.
51409. Wingfoot Corporation. Improvements in tires.
51410. Edwin Danks and Company (Oldbury) Limited. Improvements in control systems for mechanical stokers. (5th March 1953).
51411. International Minerals & Chemical Corporation. Improvements in or relating to production of ammonia and sulfur-bearing materials from ammonium sulfate.
51412. American Cyanamid Company. Improvements relating to new monothiophosphate esters and to miticide compositions containing same. (9th November 1953).
51413. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to electrode systems comprising a semi-conductive electrode secured to a support sealed in a glass envelope.
51414. Hemphill Company. Improvements in or relating to methods of knitting on circular, independent needle, knitting machines. (21st May 1953).

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the

course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in (crescent bracket are the dates allowed under Section 78-A of the Act.

47365. V. Schauburger. Method and apparatus for conveying gaseous and liquid media. Accepted on 25th February 1954.

Fluid is conveyed through pipes or troughs the cross-section of which forms an egg-shape.

47705. W. D. Tenbroeck. A combination staple remover and letter opener. Accepted on 25th February 1954.

Comprises a metal blade with rounded wedge end and with two ascending flanges on either side of the blade.

47981. Tru Colour Film Limited. Improvements in or relating to colour photography. (31st August 1951). Accepted on 1st March 1954.

Developing a latent silver image in black and white developer, bleaching the resultant image and then treating it with an aqueous liquid containing (a) an at least sparingly water-soluble thioamide or selenoamide (b) an at least sparingly water-soluble dye stuff and (c) a substance which reduces the water solubility of the silver halide or halides present in the bleached image.

47982. Council of Scientific and Industrial Research. An improved process for electrolytic production of high purity manganese dioxide. Accepted on 27th February 1954.

Electrolysing a solution of manganese sulphate and sulphuric acid between antimonial lead anodes and stainless steel cathodes.

48495. G. T. Church. Improvements in or relating to incubators. (14th December 1951). Accepted on 3rd March 1954.

Comprising a casing having a cover, inner walls within the casing, a heating device between the casing and the inner walls, an egg tray within said inner walls, air inlet at the base of the casing and humidifying means disposed over the inlet.

49115. Siemens & Halske Aktiengesellschaft. Improvements in terminal circuit arrangements for signal circuits. (17th November 1952). Accepted on 3rd March 1954.

Comprises a reception relay and a transmission switch which short circuits the relay when required.

49387. Bomford & Evershed Limited. Improvements in or relating to attachments for vehicles for traversing heaped up material along the ground. (28th April 1952). Accepted on 2nd March 1954.

Mounting for blade embodies means responsive to the resistance to movement of blade along the ground.

49554. P. K. Puri. Improvements in or relating to the manufacture of boots and shoes. Accepted on 26th February 1954.

Cutting lower portions of an extra heel, which is adjusted over the insole of a shoe.

49871. Parke, Davis & Company. Process for the production of 1-phenyl-2-dichloroacetamido-1, 3-diol compounds. Accepted on 27th February 1954.

Reacting dialkyldichloroacetylphosphite or arsenite with an amino diol.

49946. PERFOGIT Societa per Azioni. Process for the production of 11-bromo-undecanoic acid. Accepted on 25th February 1954.

Reacting undecilenoic acid with HBr in presence of a peroxide and absence of free oxygen.

50033. Siemens & Halske Aktiengesellschaft. Improvements in or relating to teleprinter machines. (9th July 1953). Accepted on 2nd March 1954.

Provided with a receiving combiner and guide means for selective adjustment of push members which in turn adjust the combiner.

50061. T. Hindmarch. Improvements in or relating to power transmission mechanisms. (21st August 1952). Accepted on 25th February 1954.
An inter engaging input pinion on each of the two or more intermediate shafts and a common output toothed wheel.
50126. Societe La Cellophane (La Cellophane SA). Improvements in or relating to methods and apparatus for producing wrapped bars of chocolate and the like thermoplastic materials. (12th September 1952). [Addition to No. 42396]. Accepted on 3rd March 1954.
The smoothing mechanism comprising upper and lower, superposed, endless chains having smoothing plates to engage surfaces of chocolate bars and cross strips to engage the closure strips connecting the bars.
50127. Societe La Cellophane, (La Cellophane SA). Improvements in or relating to methods and apparatus for producing wrapped bars of chocolate and the like thermoplastic materials. (12th September 1952). [Addition to No. 42396]. Accepted on 3rd March 1954.
Applying to the severed edges of closure strip, as the bars are advanced, a sealing substance.
50128. Societe La Cellophane, (La Cellophane SA). Improvements in or relating to methods and apparatus for producing wrapped bars of chocolate and the like thermoplastic materials. (12th September 1952). [Addition to No. 42396]. Accepted on 3rd March 1954.
The closure strips are severed by a rotary cutter mechanism.
50165. Surja Nath Chatterjee. Improvements in and relating to soling material for footwear. Accepted on 25th February 1954.
Comprising a layer of rope partially embedded over one surface in a layer of elastomer.
50179. T.M.M. (Research) Limited. Improvements in textile spinning doubling and twisting machines. (5th September 1952). Accepted on 25th February 1954.
Creel or container of material is located at a lower level than the spinning elements, the drawing device situated at an intermediate position, and the spinning device at the uppermost level.
50184. Monsanto Chemical Company. Terpolymers. Accepted on 2nd March 1954.
Terpolymers of styrene, acrylic acid and acrylonitrile.
50241. Dipl. Ing. A. Kreidler. Method of and means for manufacturing gear wheels. Accepted on 26th February 1954.
Wherein a length of steel is produced by a forging operation, from which gear wheels are separated as discs.
50291. The English Electric Company Limited. Improvements relating to electric motor control systems. (30th September 1952). Accepted on 27th February 1954.
Of the kind including change over means effective when operated to introduce dynamic braking by disconnecting a slip ring type induction motor primary winding from the A.C. supply and connecting it instead to a D.C. supply.
50348. Koppers Company, Inc. Gasification of fuels. Accepted on 25th February 1954.
Gaseous reaction products are flown counter-currently with the moving fuel of fixed bed.
50394. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to electric discharge tubes comprising an oxide cathode. Accepted on 2nd March 1954.
The carrier metal contains 1 to 10 per cent. by weight of metals reacting with alkaline-earth metal compounds and 0.03 to 0.25 per cent. by weight of metals which can separate alkaline earth metal from alkaline-earth oxide.
50396. B. Singh. Improvements in or relating to regulators and particularly regulator switches for fans. Accepted on 3rd March 1954.
Comprises a series of projections, a contact arm, an auxiliary arm, wherein the use of the ball or spring is avoided.
50425. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to receivers for frequency-shift telegraphy. Accepted on 26th February 1954.
In which the demodulated signals are supplied via series capacitors to peak-voltage rectifiers passing current in opposite direction and having a common output resistor of which a central tapping is connected to a pulse repeater.
50427. Metropolitan-Vickers Electrical Company Limited. Improvements relating to railway track signalling systems. (27th October 1952). Accepted on 3rd March 1954.
There are provided transmitting means for feeding the track with pulses, and relays differently responsive to pulses of different polarity to control the track signals.
50432. The British Thomson-Houston Company Limited. Improvements in and relating to electric discharge devices. (22nd October 1952). Accepted on 1st March 1954.
The cathode having a protective layer between the base metal and the electron emissive layer.
50475. "Shell" Refining & Marketing Company Limited. Improvements in and relating to fuels for internal combustion engines and to processes for driving spark ignition type internal combustion engines. Accepted on 26th February 1954.
Containing halohydrocarbon scavenger and cyclic organic compounds of phosphorous, arsenic, antimony or bismuth in ratio of theories between 3:2 and 100:1.
50539. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny & Cirey. Improvements in the manufacture of alkali-metal hydrosulphites. Accepted on 3rd March 1954.
The manufacture is characterised by reacting alkalimetal amalgam with a solution of alkali-metal bisulphite in hydro-alcoholic medium.
50548. United States Rubber Company. Improvements in pesticidal compositions. Accepted on 3rd March 1954.
A mineral silicate, a pesticide having chlorine substitution in an aliphatic group and sodium and calcium salts.
50698. The Clyde Rubber Works Company Limited. Pad for use with flat bottomed rails. [Addition to No. 48173]. Accepted on 27th February 1954.
A slab or resilient material having parallel upper and lower faces each formed with parallel grooves with sides of grooves converging towards roots which are parallel to the faces.
50740. The English Electric Company Limited. Improvements relating to axle-hung electric traction motor drives. (15th December 1952). Accepted on 26th February 1954.
The motor is arranged for limited transverse movement relative to the bogie or undercarriage which movement is restrained by resilient means.
50777. P. M. G. De Terramala. Improvements in friction clutches. (5th December 1952). Accepted on 26th February 1954.
One shaft is connected to two co-rotating members and the other shaft is connected to a third member the engagement or disengagement is effected between two co-rotating members and the third member.
50809. Linoleum Manufacturing Company Limited. Treatment of drying oils for use in the manufacture of linoleum and like coverings. Accepted on 2nd March 1954.
Blowing during "smacking" or oxidising process a quantity of nitrogen into the mass of oil.
50810. Linoleum Manufacturing Company Limited. Treatment of drying oils for use in the manufacture of linoleum and like coverings. Accepted on 2nd March 1954.
Blowing during "smacking" or oxidising process a quantity of carbon dioxide in the mass of oil.

50878. Stamicarbon N. V. Process of preparing calcium carbide in a shaft furnace. Accepted on 3rd March 1954.

The weight ratio between the calcium oxide and carbon in the fuel calcareous addition mixture fed into the top of the furnace shaft is greater than $\frac{1}{4}$ and lower than $\frac{1}{2}$.

50905. Casablancas High Draft Company Limited. Improvements in roller weighting means for textile fibre drafting mechanisms. (22nd January 1953). Accepted on 26th February 1954.

Weighting spring is suspended within a hollow beam mounted out of alignment with the dependent end of a co-operating saddle assembly weighting hook.

Opposition Proceedings

(1)

An opposition has been entered by C. M. Sweet to the grant of patent on application No. 46596 made by Essoldo Circuit (Control) Limited.

(2)

Oppositions have been entered by C. M. Sweet to the grant of patents on applications Nos. 46598, 46599 and 60357 made by Essoldo Circuit (Control) Limited.

(3)

An opposition has been entered by C. M. Sweet to the grant of a patent on application No. 46600 made by Essoldo Circuit (Control) Limited.

(4)

The opposition entered by Kartar Singh Murba to the grant of a patent on application No. 47588, and notified in Part III, Section 2, of the Gazette of India, dated the 24th January 1953, has been disallowed. A patent will be sealed subject to amendment of the specification.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

44979. 45025. 45033. 45117. 45118. 45209. 45306. 45350. 45482.
45486. 45525. 45595. 45654. 45802. 45930. 46142. 46528. 46675.
46688. 46740. 46744. 46827. 46853. 46866. 46894. 46933. 47061.
47193. 47204. 47207. 47278. 47309. 47389. 47394. 47423. 47425.
47426. 47456. 47540. 47604. 47605. 47623. 47776. 47803. 47812.
